Giving Young People Their Creative Voice!

Welcome to

"Colours of Me"

an exhibition of work created by young people on Lewisham Virtual School's Hospital and Outreach Programme (HOP)

Not being in mainstream education, for whatever reason, can lead to feelings of isolation, a lack of opportunities to interact with peers and little if any arts based education.

HOP are dedicated to ensuring pupils have their access to education preserved as much as the students illness allows, whilst they are unable to attend mainstream education due to health needs.

Talk About Art and HOP have joined forces to give children the opportunity to come together and work with professional artists in a sympathetic art studio environment.

This exhibition is the result of ten weeks collaboration on a theme of individual and group identity.
